ABOUT GEW

Global Entrepreneurship Week is a celebration of innovators who dream big and launch startups that bring ideas to life. Each November, GEW reaches millions of people through local, national and global events and activities. From large-scale startup competitions and workshops to small, community discussions – GEW reaches new audiences and connects participants to a network that can help them take the next step, no matter where they are on their entrepreneurial journey.

Across the globe, more than 39,000 events are planned across 170 different countries by a wide variety of organizations including: colleges and universities, entrepreneurial support organizations, government agencies, economic development groups and more.

Why do so many people celebrate GEW? Because it's a simple way to reach beyond your immediate network and connect with potential new partners, funders and members.
